PROFILE SUMMARY

Experienced and results-driven Software Engineer with a proven track record in developing and executing successful software solutions. I am seeking a challenging role where I can contribute my skills in software development, team leadership, and creative problem-solving to achieve business objectives.

EDUCATION

2020 - 2022 BORCELLE UNIVERSITY

- Master of Computer Science

2016 - 2020 BORCELLE UNIVERSITY

- Bachelor of Computer Science
- GPA: 3.8 / 4.0

WORK EXPERIENCE

NeuroFlux Labs

2024 - PRESENT

AI Systems Architect

- Led the design and deployment of sophisticated AI-driven systems, enhancing data processing capabilities and achieving a 20% increase in operational efficiency within the first year.
- Successfully architected and integrated AI solutions across multiple platforms, including cloud computing, machine learning, and data analytics, resulting in improved system performance and user engagement.

Skybound Technologies

2022 - 2024

Full-Stack Engineer

- Developed and implemented full-stack solutions to enhance application functionality, integrating emerging technologies and user preferences for improved performance and user experience.
- Led the design and deployment of scalable web applications, collaborating with cross-functional teams to ensure seamless integration and maintain system reliability.

QuantumEdge Solutions

2020 - 2022

Software R&D Intern

- Assisted in developing and executing software testing protocols, contributing to improved software quality and user satisfaction.
- Participated in code reviews and debugging sessions, enhancing software performance and reliability.
- Collaborated with development teams to create technical documentation and presentations, aiding in effective communication and project progression.
